

Curriculum Vitae

Name	Dr. W.W. IMMERZEEL
First Name	Walter
Date of Birth	21 June 1975
Nationality	Dutch
Main Disciplines	Geo-informatics, Remote Sensing, Hydrology, Simulation models, Climate Change
Address	FutureWater Costerweg 1G 6702 AA Wageningen The Netherlands Tel: +31 317420258 Email: w.immerzeel@futurewater.nl

Key Qualifications

Dr. W.W. (Walter) Immerzeel has eleven years experience in geo-informatics, water resource management and climate change with a special focus on the interface between GIS and simulation models. He holds a PhD degree in physical geography at Utrecht University. His dissertation is titled "Spatial modeling of mountainous basins; an integrated analysis of the hydrological cycle, climate change and agriculture". He also has extensive experience in the application of Remote Sensing in mountain areas for systematically assessing and monitoring climate change, flooding, droughts and food security. He has worked in the Netherlands as well as in a number of developing countries (China, Mexico, Bangladesh, India, Nepal, Philippines, Kenya). In the Netherlands he has worked on several projects for Dutch water boards focusing on climate change, water retention and flooding. From December 2002 until June 2004 he was attached to the International Centre for Integrated Mountain Development (ICIMOD) in Nepal as associate expert GIS and natural resource management. He is responsible for a number of projects on the cutting edge of climate change and hydrology. Current contractors include Dutch ministries, water boards and the World Bank. He is also a CASIMIR fellow supported by the Netherlands Organization for Scientific Research (NWO) and working on seasonal forecasting of Asian river discharges from the Himalayan cryosphere and monsoon feedbacks in close collaboration with Utrecht University.

Educational background

2003 – 2008	PhD physical geography at Utrecht University, the Netherlands. The dissertation is titled "Spatial modeling of mountainous basins; an integrated analysis of the hydrological cycle, climate change and agriculture"
1993-1998	MSc Environmental Sciences, faculty of geography, Utrecht University, The Netherlands

Professional Experience

- 2005 - present Hydrologist, FutureWater, Wageningen, The Netherlands
- 2008 - present NWO-CASIMIR post-doc at Utrecht University, the Netherlands
- 2003 – 2004 Associate Expert GIS and Natural Resources, International Centre for Integrated Mountain Development (ICIMOD), Kathmandu, Nepal
- 2000 - 2002 GIS-hydrologist, Alterra research institute, Wageningen, The Netherlands
- 1998 - 2000 GIS/RS consultant, Geodan Geodesie, Amsterdam, The Netherlands
- 1998 Research trainee, International Institute for aerospace survey and earth sciences, Enschede, The Netherlands
- 1996 Research trainee, CML, Cagayan Valley Programme for Environment and Development, Cabagan, The Philippines

Overseas Professional Experience

Resident:

Nepal (2 years), Philippines (7 months)

Non-resident assignments:

India, Bangladesh, China, United States, Kenya

Selection of Assignments and Projects

- 2008-2012 Researcher in the EU FP7 project CEOP-AEGIS: an international cooperation project between Europe and Asia to improve knowledge on hydrology and meteorology of the Tibetan Plateau and its role in climate, monsoon and extreme meteorological events.
- 2011 Consultant for Asian Development Bank project on Water and Adaptation Interventions in Central and West Asia
- 2008-2011 CASIMIR grant holder from the Netherlands Organization for Scientific Research (NWO). In close collaboration with Utrecht University the project is focusing on seasonal forecasting of Asian river discharges from cryosphere and monsoon feedbacks.
- 2010 Project leader for the World Bank project "Water Outlook 2050 for the Middle East and North Africa
- 2010 Consultancy for the Mekong River Commission as Senior International Expert Drought Management
- 2010 Consultancy for the Mekong River Commission as Senior International Expert Satellite Precipitation.
- 2010 Project leader of a project to assess the effects of climate change in the Netherlands on water excess for the Climate Change Atlas.
- 2008-2009 Project leader of the project "Needs Assessment of Future ESA Satellites for Water Management in Southern Europe"
- 2007 Organizer of a workshop on "Integrated Water Management Support Methodologies" in Kenya. See www.futurewater.nl/watmansup.

- 2006-2007 Project leader and principle investigator of the project “Remotely Sensed Based Hydrological Model Calibration for Basin Scale Water Resources Planning: Embedding Case for Krishna Basin” in India. See www.futurewater.nl/krishna.
- 2006 Researcher in an IFAD (International Fund for Agricultural Development) supported proof of concept of green water credits in relation to the exploration of options for improved water and soil management issues in Kenya.
- 2006 Principle investigator in a project that evaluated the effects of climate change on the regional hydrology of water board in the river delta of the Netherlands.
- 2006 Principle Investigator in a project that evaluated the water supply for a Water board in the Netherlands.
- 2005-2006 Principle investigator in a project that explores sustainable options for water use in the Rio Bravo basin using Remote Sensing and simulation models in Mexico. See www.futurewater.nl/riobravo.
- 2005 Principle investigator in a project that evaluated water delivery requirements for agriculture in the Netherlands. For a Dutch water board an evaluation of current water delivery and future changes as a consequence of climate change were made.
- 2005 Researcher in a project which assesses hydrological bottlenecks in terms of water excess and water scarcity in the largest land reclamation area in the Netherlands.
- 2005 Project leader and principle investigator of the project “Exploring evaporation reduction options in the Hai basin” in China. A hydrological simulation model in combination with Remote Sensing provided insight in the water balance and the effects of different management scenarios.
- 2004-2005 Principle investigator in the project “Prototyping Ecoregional Analyses Tools to Improve Science-Based Decision Making in Research and Development” in Tibet. A combination of simulation models, remote sensing and GIS are applied to investigate the interaction between decision making, land use, agricultural development and water. See www.ecoregionalfund.com.
- 2004 Coordinator of a regional training course on geo-informatics for watershed management in the Hindu-Kush Himalayas. A course jointly organized by ITC and ICIMOD dealing with water related issues and tools in five Himalayan countries.
- 2003 Teacher in a national training course on GIS and water resource management in Dhaka, Bangladesh.
- 2003 Development of a project proposal studying the contribution of glacial melt water on highland agriculture in the framework of the CGIAR “water for food” challenge program.
- 2003 Project planning and coordination of a project on decision support systems in national parks funded by the Italian development cooperation. The work mainly focused on the Sagarmatha National Park in Nepal.
- 2003 Coordinator of a project on crop suitability mapping in Himachal Pradesh, India. GIS was used to map the crop suitability in the mountainous state of Himachal Pradesh.
- 2002 Researcher in the project “Water productivity of irrigated crops in Sirsa district” in India. The water productivity was assessed for different crops in the Sirsa irrigation circle using a combination of Remote Sensing and simulation models.

- 2000-2002 Researcher in a project assessing water storage potential in Noord-Brabant in The Netherlands. A user-friendly GIS interface was programmed for the integrated hydrological model SIMGRO, which enabled the quantification of water storage, climate change and flooding issues on a regional scale.
- 1998-2000 Researcher in a project with RIZA on the development of BASELINE; a ArcINFO GIS application for generating and visualizing input and output for the hydraulic models SOBEK and WAQUA. The simulation models were applied for the large river systems in The Netherlands.

Language Skills

- Dutch: mother tongue
 English: fluent in writing and speech
 French: moderate
 German: moderate
 Nepali: moderate

Computer Skills

- GIS/RS: ArcView (including programming in avenue), ArcInfo, ArcGIS (including programming in VBA), Erdas Imagine, IDL/Envi, ER Mapper, Idrisi, PC raster.
- Simulation models: SWAT, SWAP, WEAP, SimGro
- Databases: MS Access, Microsoft SQL server, PostGreSQL
- Standard software: MS Office suite, Adobe Photoshop
- Others: HTML, R, MatLab, MathCad, Python

Miscellaneous

Additional courses:

- 2003 Course in proposal development at the International Water Management Institute (IWMI)
- 2001-2002 Several courses in meteorology and air quality at the Wageningen University
- 2001 Programming in ArcGIS 8.0 using Visual Basic for Applications and ArcObjects; a course of ESRI Netherlands.
- 2000 Project management and organisation by Schouten & Nelissen, Netherlands.
- 1999 Programming in ArcView Avenue; a course of ESRI Netherlands.

Other academic activities

- Invited speaker at a high level work shop on the "Fate of Mountain Glaciers in the Anthropocene" at Pontifical Academy of Sciences in the Vatican, organized by Nobel prize winner Paul Crutzen (April 2011)
- Invited international expert to develop implementation plan for the Monitoring and assessment of changes in glaciers, snowfields, and glacio-hydrology in the Hindu Kush – Himalaya programme executed by ICIMOD and funded by the Norwegian government (January 2011)
- Invited speaker at an international expert meeting on Climate Change in the Indus Basin (June 2010)
- Keynote speaker at the UNEP International Expert meeting on climate change in the Himalayas in December 2009.
- One of the young researchers of Utrecht University who presented results of climate change research onboard of a special train with Dutch politicians, the Dutch negotiation delegation, journalists and NGO on its way to the Copenhagen climate conference in 2009.
- External referee the International Institute for Geo-information Science and Earth Observation.
- Contributor to an international water expert meeting of the World Bank.
- Guest lecturer at Utrecht University for remote sensing and hydrology courses of the Department of Physical Geography.
- Supervision of several Master students during their final thesis research at the Department of Physical Geography of Utrecht University.
- Presentation of research results at several international scientific conferences.
- Reviewer of several scientific journals: Agricultural Water Management, International Journal of Climatology, Nature Geoscience, Sensors, Remote Sensing of Environment, Water Resources Research.
- Reviewer for the EU FP7 European Reintegration Grants (ERG) and International Reintegration Grants (IRG).

Scholarships and prizes

NWO-CASIMIR (2007)

Publications

Peer reviewed publications
